
Perfect for parquet: The new THOMAS AQUA+ MULTI CLEAN X10 PARQUET

- » Revolutionary premium vacuum and carpet cleaner for parquet lovers
 - » Innovative AQUA+ technology provides nearly 100% cleanliness and freshness
-

Neunkirchen, September 2014 – Parquet floors are still among the most popular in Germany. Not only do they look great, but they remain timelessly beautiful with the right care. To make sure that this elegant surface does not swell, we are told: “Don’t let it get too wet!” The Robert Thomas experts from Neunkirchen in the Siegerland region of Germany have developed the optimum solution for the care of parquet floors with the new THOMAS AQUA+ MULTI CLEAN X10 PARQUET. Whether you want to vacuum, wash or wipe up the floor – the innovative special power spraying system of this multi-talent guarantees that parquet lovers will obtain shining, dry hard floors and deep clean carpets in a single operation. Equipped with the newly developed parquet cleaning nozzle, the AQUA+ MULTI CLEAN X10 PARQUET ensures extremely thorough cleanliness for this sensitive flooring and glowingly beautiful parquet gloss. And the powerful vacuum cleaner in modern mint green removes dust and dirt as quickly as can be thanks to its unique AQUA+ filter system. With this innovative technology, the particles that are drawn in are captured in the water, so that they can no longer escape into the air in the room – and this results in noticeable freshness in your own four walls.

Pressinformation

Parquet care made easy – in a single operation

Dust, tough stains or other dirt – the THOMAS AQUA+ MULTI CLEAN X10 PARQUET removes even the most stubborn soil very gently and thoroughly with its parquet cleaning nozzle. Especially practical is the fact that this parquet specialist cleans and dries the sensitive floor surface in a single operation. This ensures that the wood will not swell because it has become too wet during the cleaning process, causing unattractive damage to this fine material. Particularly convenient is the remote control built into the handle, with which the vacuum cleaner can be easily and conveniently controlled. The special water filter system, including the special hygiene filter and the MICRO EXHAUST FILTER, also ensures that 99.99 percent of the dust is filtered from the air, making it noticeably fresher – so that you can breathe freely while you are cleaning the house. If you should want to quickly dry vacuum clean the floor on occasion, there is an additional option of using a dust bag.

State-of-the-art technology for the greatest cleanliness

The practical multi-talent also offers many exciting technical features that make bothersome vacuum cleaning into a real experience. Equipped with a high-quality, flexible incord textile hose, an extra-long telescopic stainless steel wand, two 360° easy-drive castors, and an eight-meter long cable, the vacuum cleaner allows the greatest possible space and almost limitless freedom during cleaning. Innovative 3-setting suction with ECO Control and up to 1700 watts ensure the necessary power and suction. A carpet nozzle with a bristled all-around rim, an extra-wide upholstery nozzle (190 mm), an extra-long crevice nozzle (360 mm), a furniture brush, a spray extraction carpet and upholstery nozzle ensure that this all-around talent will also shine on other surfaces. Your carpets, upholstery, etc., will reflect in-depth cleanliness and a delightful freshness.

The trendy AQUA+ MULTI CLEAN X10 PARQUET – “Made in Germany” – is now available from 399.00 euros (RRP). Information about the company and other THOMAS products can be found at the www.robert-thomas.de website.

About THOMAS

THOMAS is a brand of the renowned German family enterprise Robert Thomas, Metall und Elektrowerke GmbH & Co., based in Neunkirchen in the Siegerland region of North Rhine-Westphalia, Germany. In keeping with its determination to “Do our best for our customers,” Robert Thomas has been developing and manufacturing innovative „Made in Germany“ products for more than 100 years. The production of the first electric motor-driven metal washing machine in Europe at the end of the 1940s was considered a major milestone in the history of the company. Today allergy-friendly vacuum and carpet cleaners with and without spray extraction, as well as spin dryers, demonstrate the pioneering spirit of the company, which is now owner-managed in the fourth generation. The Neunkirchen site manufactures equipment that meets the highest standards of quality, durability and serviceability. THOMAS products are available throughout Germany in large and small electric appliance specialty stores and on the Internet and are sold in more than 30 countries all over the world. Further information is available on the Internet at www.robert-thomas.de.
